# Why Men Don't Tend to Seek Regular Healthcare

Men's Health Month in June aims to encourage boys and men to take charge of their overall health by implementing healthy living decisions. It is crucial that men get regular checkups and be aware of the risks for their age, ethnicity, and lifestyle.

According to Wellmark Blue Cross and Blue Shield:

- 72% of men would rather do household chores than go to the doctor
- 65% admitted to waiting as long as possible before seeking medical care
- 20% of men said they aren't always honest with their doctors about their health

So, why don't men seek regular healthcare? And what can men and their loved ones do to change it? Read Wellmark's <u>3 excuses men use to avoid the doctor</u> to learn why regular care is important.

#### The Link Between Oral Health and Lyme Disease

Did you know a tick bite resulting in Lyme disease can cause oral health symptoms such as tooth pain or facial numbness? Other hallmark symptoms of early Lyme disease include a bull's eye rash at the bite site, headache, fatigue, and pain in the joints and muscles.

Do not ignore these early symptoms of Lyme disease. Getting treatment early helps fully treat the infection and avoid the dangerous side effects of the disease. Read <u>The link between oral health and Lyme disease</u> from Delta Dental to learn more about staying safe from ticks this summer.

# **Retirement Benefits and Savings**

# RIC Tip: You Can Roll Your IRA or Past Employer Plan into RIC

At any time, RIC participants may roll outside retirement savings into and out of RIC without restrictions or penalties (as a non-taxable event). **Are you new to the State of Iowa?** Employers will sometimes require you move your money out of their plan when you leave employment and put it into an Individual Retirement Account (IRA) or other employer plan like RIC. Do you have retirement savings in a past employer plan or an IRA?

**Shop and compare the many benefits** of rolling your retirement savings dollars into RIC, such as:

• Diversified mutual funds with no sales charges or restrictions. See the <u>RIC At-A-Glance</u> for a complete list of funds and total fees. RIC offers an inexpensive way to buy into the market. Mutual fund share pricing is lower than many individual IRAs with an advisor.

- Competitive fixed interest rate accounts with no fees
- Roll-in money is available for distribution with no restrictions or fees
- Annual 457/401a plan investment reviews by DAS and an outside consultant
- Savings and retirement planning education and tools and advisors to help you at no additional cost

To **request a roll-in** of your outside retirement plans, contact your RIC provider/advisor for assistance. You might also need to contact your outside retirement plan for their required form.

**Put any pay increase to work.** Each time your income is tuned up, you should tune up your retirement savings too. If you contribute half of any salary increase to the RIC 457 Deferred Compensation Plan, you can increase your savings rate and still have money left over.

**Why it's important.** When combined with other savings and any pension you receive, the RIC 457 Deferred Compensation Plan may provide income you need for retirement and help you to enjoy a more financially secure future.

**Tune up your retirement savings!** As an incentive, the State of Iowa offers a generous matching contribution. Here's how it works: If you contribute to the RIC 457 plan, your employer will match \$1 for every \$1 you save up to the first \$75 each month.

#### Max the match and don't leave money behind!

If you contribute to the 457(b) every month	\$0	\$25	\$50	\$75
The State of Iowa will add	\$0	\$25	\$50	\$75
Total saved for retirement each month	\$0	\$50	\$100	\$150
Total saved for retirement each year	<i>\$</i> 0	\$600	\$1,200	\$1,800

# Horace Mann

Most of us save money for big-ticket items we want to buy - a new car, home, or vacation. Yet you may not realize the most expensive thing you may ever purchase in your lifetime is your retirement. Lucky for you, the power of compounding can help you purchase the retirement of your dreams. The sooner you start, the greater the impact of compounding. Compounding is what Albert Einstein called, "the greatest invention ever known to man."

Compounding happens when earnings on your savings are reinvested to generate their own earnings, which in turn are reinvested to create more earnings, and so on. Over time, compounding can add a lot of power to the growth of your savings.

Enroll today and avoid the high cost of procrastination!

#### Will you be able to retire when you anticipate?

How prepared are you to retire at the age you envision? Experts say you'll need about 75% of your current salary each year in retirement to live the same lifestyle as you have today. If you are young, you can take advantage of compounding interest by saving early and consistently. If you are a little late to planning for retirement, you will need to save more of your paycheck to catch-up during your remaining working years.

When you log in to your lowa Retirement Investors' Club (RIC) Retirement Plan at <a href="mailto:iowa.beready2retire.com">iowa.beready2retire.com</a>, the <a href="mailto:myOrangeMoney experience">myOrangeMoney experience</a> on your homepage can help you estimate your monthly replacement income in retirement based on how much you are saving, have saved, when
