

IOWA DEPARTMENT OF ADMINISTRATIVE SERVICES ▼
HUMAN RESOURCES ENTERPRISE
FORENSIC AUTOPSY TECHNICIAN

DEFINITION

Prepares the autopsy suite, necessary paperwork, specimen containers and body for postmortem examination; assists the Forensic Pathologist with the autopsy examination (e.g., weighing organs, evisceration of organs, collecting toxicology samples, etc.) and restores the body following the examination; performs related duties as required.

The Work Examples and Competencies listed are for illustrative purposes only and not intended to be the primary basis for position classification decisions.

WORK EXAMPLES

Assists the Forensic Pathologist/Physician Assistant with moving bodies in the autopsy suite and eviscerating organs from bodies.

Labels folders, autopsy forms, diagrams and prepares/labels specimen containers for toxicology, evidence and tissue prior to autopsy.

Maintains toxicology, evidence and tissue specimens for easy retrieval and keeps appropriate logbooks and chain of custody when collecting, receiving, storing or transferring bodies, evidence, toxicology and tissue specimens.

Removes skull-cap (calvarium) to expose the brain for gross examination and weighs all organs; opens and exposes the length of the small/large intestines for gross examination.

Restores body following postmortem examination by: replacing organs; packing cavities; suturing the body closed; washing, disinfecting and shrouding the remains; and return the body to refrigerated storage.

Assists the medicolegal death investigator with "report of death" phone calls and receives/stores bodies for autopsy; releases bodies to authorized parties and ensures bodies are correctly toe tagged (labeled).

Notifies funeral home and readies the body/remains for transfer; maintains records for the reception, transfer, and release of bodies and personal effects.

Assists investigators with crime/death scene visits; collects/labels specimens and specimen containers; helps with the collection, preservation, and transfer of trace evidence to the state crime laboratory.

Cleans morgue/attendant areas, instruments, equipment, floors, autopsy tables/attachments, dissecting area, refrigerated storage, state vehicles, etc and ensures surfaces are free of blood, other body fluids, airborne pathogens, and other undesirable materials.

Assist with standard record keeping, labeling of photographic slides, and filing of paraffin tissue blocks and microscopic slides.

Assist with general clerical duties (i.e., data entry, photocopying, receiving, opening, and sorting mail, etc.) and enters data from County Medical Examiner personnel; notifies County Medical Examiner personnel if questions and/or discrepancies arise and seek clarification.
