RFB Rules

A Request for Bid (RFB) is always a publicly-advertised, formal solicitation. The RFB includes well-defined specifications and/or scope of work, including all contractual terms and conditions. The PA or AAP solicits bids from prospective vendors. Bids for the goods or services must be received by a set date and time. The RFB award is made to the lowest responsible bidder. See the DAS Central Procurement Policy and Procedures Manual for more details.

The RFB may require additional approvals from OCIO or IDOM in accordance with its policies.

**The competitive sealed bid process includes the following steps:**
1. Creating the Request for Bid (RFB)
2. Posting the Bid Opportunity on the TSB website and in IMPACS
3. Receiving and Opening Bids
4. Evaluating the Bids
5. Negotiating the Contract
6. Generating the Contract

TSB Notification IAC 117.7(2)
Post all solicitations to the TSB web page at least 48 hours prior to a general posting in IMPACS. The password to the TSB web page changes monthly; each agency shall assign an employee current access to the web page.

Sign into Okta and locate the Jaggaer stickers
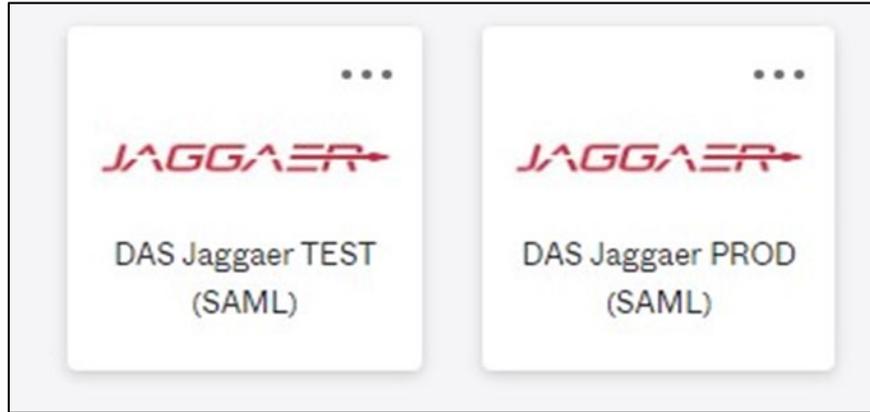

Best practice: Create an RFB in the IMPACS (Jaggaer) test environment before posting in the Production (PROD) live site.

Product Line Items

The Buyer may add or import **Groups** by clicking the **Add or Import** button.

When done, **Save Changes**.

Service Line Item

Service Line Items are added the same way as Product Line Items.
