Drag and drop an unlimited number of files at a time. Individual file size is limited to 50MB. Or click the **Select files** button to open your file explorer and select your files from there.

Best practice: Select “No” for Print with full contract if uploading many attachments. Chances are that you are only printing the Main Document, any special terms, SOW, or a price sheet as one contract document – not the supporting documents (RFx, NOIA, etc.)

Show on Vendor Portal allows the vendor to see the attachments from their portal.
