Online Registration

Access Online is US Bank's online credit card management system.

Cardholders and Agency administrators are expected to monitor transactions and allocate expenses regularly to ensure accuracy and efficiency. At the end of the billing cycle, Cardholders must print and sign statements, verify expenses, match receipts plus any informal quotes and/or other documentation as needed, and submit to required approvers and Agency Administrators according to internal procedures.

Statements are available on the 21st day of the month unless the 20th falls on a weekend or a holiday. Then the cycle ends at midnight of the following business day.

[Creating A Cardholder Account and Logging In](#)

Log on to the site at: <https://access.usbank.com> to register your Cardholder Account online. This must be completed **BEFORE** you can access your account information, transactions or statements. Enter *Iowa* in the Organization Short Name field and select Register Online. When registering, you must include your State of Iowa email address in order to receive monthly statement notices.

Passwords and password phrases

Passwords

Passwords must be 12-99 alphanumeric characters. Passwords must contain *at least* one uppercase letter, one lowercase letter, one number, and one special character. You cannot use any part of the user ID, the first name, or the last name. You cannot reuse a password for 12 months. Passwords are case-sensitive.

Allowed special characters for password phrases

For password phrases, the system allows all special characters without restrictions.

Password phrases

Password phrases are phrases, instead of single words. You can include multiple words with or without spaces, but do not put a space at the beginning or end of the password phrase and do not put two spaces together. Your password phrase must be at least 14 characters long, but longer is better. Your password phrase can include numbers and special characters, but they are not required. Your password phrase should be unique, so do not use lyrics, quotations, and aphorisms.

Learn more: Access Online requires all users to set three authentication questions and answers. This practice increases the security of system access and thus protects the account information in Access Online. If you registered online, then you set your authentication questions answer then. You can update your questions and answers at any time using the My Personal Information function. Refer to the Access Online: My Personal Information quick start guide. You also answer one of your questions if you use the Forgot Your Password function. Program Administrators can view, but not edit, your questions. Program Administrators cannot view your answers. Help Desk staff can also see your questions, but not your answers. Help Desk staff can only validate as correct/incorrect the answers you give them on the telephone.

Information

Enrolling in enhanced security authentication

When you register online, your organization may allow or require you to enroll in Enhanced Security Authentication. With Enhanced Security Authentication, you request and enter a single-use passcode every time you log in to Access Online, for additional security.

Your organization may let you choose to use either your mobile telephone or your email address to receive the one-time passcode. Your organization may also have only one of those options available.

Learn more: If your organization lets you choose between mobile phone and email, then you have the option to pick which one. If you select to use email, the system uses the email address already in the system. If you do not already have an email address in the system, the system prompts you to specify an email address during enrollment. Your one-time passcode arrives at your email inbox each time you log in.

Our example shows mobile phone enrollment. No matter which option you use, the overall process for enrolling is the same.

Learn more: You can manage your enrollment using the My Personal Information function. Refer to the Access Online: My Personal Information quick start guide.

Enhanced Security Authentication Enrollment Preferences

Please choose an additional method to verify your identity. You can update your preferences on the My Personal Information page.

Note: Mobile phone must be a U.S. or Canadian number.

Terms and Conditions

By providing us with a telephone number for a mobile device, including a number that you later convert to a mobile device number, you are expressly consenting to receiving communications—including but not limited to prerecorded or artificial voice message calls, text messages, and calls made by an automatic telephone dialing system—from us and our affiliates and agents at that number. This express consent applies to each such telephone number that you provide to us now or in the future and permits such calls for non-marketing purposes. Calls and messages may incur access fees from your mobile services provider.

Message frequency depends on your account usage. You may opt out at any time by replying STOP to the text message. By sending STOP, you agree to one additional confirmation message stating that you've opted out and will no longer receive messages from this Access Online Enhanced Security Authentication service. You must be the mobile phone account holder or have permission from the account holder to use this service. You are not required to purchase this service as a condition of purchasing any property, goods or services. Wireless providers and their wireless provider are not liable for any delayed or undelivered messages. Messages may be delayed or not delivered due to factors outside of Bank's control. Standard text messaging fees and data rates may apply. All rates are governed by your mobile provider.

Monitoring Account Activity

One of Access Online's key benefits is the ability to **monitor account activity**. Accounts may be monitored by Cardholders or Agency PCard Coordinators and should be done regularly to detect fraud early and reduce the additional time, paperwork, and expense needed to address it.

- **Addressing fraudulent transactions BEFORE they print on the statement prevents having to pay the charges for later reimbursement**. To view charges after they post: Transaction Management-Transaction List, Card Account Summary with Transaction List. See [Viewing Current Posted Transactions below](#).

Viewing Current Post Transactions

Pcard and Travel Card transactions post to Transaction Management within 1-3 business days. From the Home screen left-hand navigation, select **Transaction Management**.

The screenshot displays the U.S. Bank Access Online interface. At the top, it says "U.S. Bank Access® Online" on the left and "State of Iowa" on the right. Below this is a dark blue navigation bar with "Our Payment Products" and "Logout" links. The main content area features the "usbank" logo on the left and "Welcome to Access Online" in the center. Below the welcome message, it states "Your last login was 10/16/2013". To the right, there is a "Language Selection:" dropdown menu currently set to "American English". On the left side, there is a vertical navigation menu with several options: "Request Status Queue", "Active Work Queue", "System Administration", "Account Administration", "Transaction Management" (which is circled in red), "Account Information", "Reporting", "Dashboard", "Data Exchange", and "My Personal Information". Below this menu are links for "Home", "Contact Us", and "Training". In the center, there is a "Message Center" section with a link for "Message(s) from Access Online". At the bottom, the slogan "All of us serving you™" is displayed, followed by the copyright notice "© 2013 U.S. Bancorp".

Allocating/Reallocating Transactions

Each Pcard has been assigned (mapped) to **default account coding** (chart of accounts: fund, department unit and object code). Some **Merchant Category Codes (MCCs)** have been mapped to default object codes (which describes the type of merchant business). Default object codes for all transactions must either be verified as accurate or reallocated. (If you don't know your Agency's accounting strings, consult your Budget Analyst or finance department.)

From the **Transaction Management** screen, the current (open) transaction list is selected by default from the **Billing Close Date** drop-down menu. Inside the drop-down menu, all active or previous billing cycle transactions are available for review. WHY WE ALLOCATE:

Allocating in Access Online streamlines the payment process. Transaction data and accounting strings are extracted from Access Online 15 calendar days after the cycle close date. Through a data interface, the information is uploaded to I/3 and used to

automatically generate Payment Request Commodity (PRC) documents. Accurate allocations in Access Online result in accurate PRCs – without the manual entry! Note that the comments entered in Access Online are included with the accounting info – Code + Comments must match exactly for line items to roll up. To help ensure consistency, some agencies create a master list of accounting codes and corresponding comments. Another option is Accounting Code Favorites.

Creating Accounting Code Favorites

A great time-saving tip is creating **Accounting Code Favorites**. You may save up to 25 favorites! To create a favorite, scroll to the far right of the reallocated accounting string and select **Add as Favorite**.

Task	Sub Task	Task (Other)	Program	Phase	Program	Comments	Favorite

The Allocations tab provides the ability to reallocate a transaction by changing the accounting information to allocate an amount to a different cost center. The reallocation can be to one or to multiple accounting codes.

You can allocate amounts by dollar amount or percentage. Total allocation amounts must equal 100% of the transaction. To allocate to additional accounting codes, click the "Add" button.

After adding, modifying or deleting allocations, click the "Save Allocations" button to save changes.
