Purpose and Summary

The intended purpose of these proposed rules is to update language for the State Records Commission under the Governor’s Executive Order 10 and to reflect the fact the Commission is now under the purview of the Department of Administrative Services through the State Government Alignment Act, 2023 Iowa Acts, Senate File 514, which has since been codified in Iowa Code chapter 8A. The topics for this chapter include organization and the State Records Manual. The current Chapters 1 and 2 under agency number [671] are combined herein. These proposed rules remain under agency number [671] since the State Records Commission has its own rulemaking authority.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

• **Classes of persons that will bear the costs of the proposed rulemaking:**

State agencies must comply with Iowa Code section 8A.601 and bear some administrative costs of conducting State business as that pertains to records.

• **Classes of persons that will benefit from the proposed rulemaking:**

The taxpayers of Iowa ultimately benefit from this rulemaking in that efficient records organization, storage, and retrieval is an important part of the vast amount of information State government creates and retains on behalf of citizens.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

• **Quantitative description of impact:**

The 16 cabinet-level agencies and other offices and entities within State government are affected by these rules, thus including a broad sector of government serving Iowans. Costs include tasks encompassing records management. That management is built into the cost of doing business for these agencies, offices, and entities.

- **Qualitative description of impact:**

Each State agency and the Legislature can use these rules to understand the entity created for records management and its manual created to outline policy and procedures.

3. **Costs to the State:**

- **Implementation and enforcement costs borne by the agency or any other agency:**

Each agency is responsible for determining the final cost of records management as that pertains to following Commission rules. This cost can vary.

- **Anticipated effect on State revenues:**

There is no anticipated effect on State revenues.

4. **Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:**

The benefits of the proposed rulemaking include a brief look at organization for the Commission and a more detailed outline of responsibilities for an agency head in the realm of records management. Overall, the rules help guide State agencies in maintaining records for the public and for State use as well.

The cost of inaction would be lack of this guidance. The State Records Manual alone is meant to provide policy and procedure.

5. **Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:**

Through research, it has been determined the Iowa records management program is one of the least restrictive of its kind in terms of bureaucratic requirements to agencies, public reporting, and audits of agency records status.

6. **Alternative methods considered by the agency:**

- **Description of any alternative methods that were seriously considered by the agency:**

No other methods were considered.

- **Reasons why alternative methods were rejected in favor of the proposed rulemaking:**

Iowa law, the State Archives and Records Act, includes the creation of a State Records Commission.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The rules are applicable to State government and do not have a direct connection to small business.

CHAPTER 1
ORGANIZATION; STATE RECORDS MANUAL

671—1.1(17A,8A) Purpose.

1.1(2) *Location.* Communication with the state records commission may be established through the State Archives and Records Bureau, Department of Administrative Services, State Historical Building, 600 East Locust Street, Des Moines, Iowa 50319.
