

To Whom It May Concern:

RE: Single Source provider for the Lynda.com library of instructional videos

Thank you for your interest in the Lynda.com, services comprised of the Lynda.com Online Learning Library. The Lynda.com library currently offers more than 3,800 courses in many subject areas such as 3D/Animation, Audio, Business, CAD, Design, Developer, Photography, Video and Web. Some of the attributes of the Online Learning Library include the following:

- Unique Online Learning Library. Lynda.com is the licensee or exclusive owner of the Online Learning Library content, and is the single and sole publisher of our collection of subject specific learning videos available in the library.
- Respected Authors. The video instructors are proven experts in their respective fields, clear communicators and excellent teachers and the specific course instruction videos are exclusive to Lynda.com.
- All You Can Learn. Lynda.com does not place any limits on our active subscribers' access to the Online Learning Library. Subscribers may watch as many titles as they want, access them at any time for as long as the subscription is maintained. Just as a public library provides access to every book in its catalogue, the Lynda.com service allows entities to view every training title published.
- Task-Based Learning. Learn an entire topic or program from start to finish or just learn a specific task.
- Video-Based Training. Watch, rewind, fast forward, and replay as often as you like. Easier than reading, our video based format is great for visual learners.

This unique educational resource is exclusively available through Lynda.com. For additional information and pricing, please contact us through one of the following options: www.lynda.com or 805-477-3900

Best regards,
