Access Online

Access Online is US Bank's online credit card management system.

Cardholders and Agency administrators are expected to monitor transactions and allocate expenses regularly to ensure accuracy and efficiency. At the end of the billing cycle, Cardholders must print and sign statements, verify expenses, match receipts plus any informal quotes and/or other documentation as needed, and submit to required approvers and Agency Administrators according to internal procedures.

Agency Administrators will collect Cardholder Statements and documentation, verify transactions and allocations in Access Online, and complete payment processing.

Note: When using Access Online, do not use the back arrow in your internet browser. Look for the return or "back to" link at the bottom of the screen, or navigate from the left-hand menu.

Creating A Cardholder Account and Logging In

Log on to the site at: <https://access.usbank.com>. The State Pcard program team will set up Agency Pcard Management access in Access Online and provide initial log-in instructions. The State Pcard Program Team will also provide the Company Number and Managing Account Vendor Customer Number (Iowa Advantage) for US Bank Payment Information. An email notification will be issued when the Managing Account Statement is ready to download and print.

Downloading Statements

The billing cycle usually closes on the 20th day of the month. If the 20th falls on a weekend or holiday, then the cycle ends at midnight of the following business day. Cardholder and Agency Managing Statements are available online the day after the cycle closes. (Paper Copies will **NOT** be mailed.)

Managing Account Statements

The **Managing Account Statement** is the Agency's "invoice" from US Bank. It lists all associated accounts that currently have a balance for that billing cycle along with any previous outstanding balance, additional fees, or credits. Printing the Managing Account Statement first allows the designated administrator to determine which cardholder statements and receipts will be needed.

To access the Managing Account Statement or an individual Cardholder Account Statement, from the left hand menu, select **Account Information** and then either **Managing Account Statement** or **Cardholder Account Statement**.

Cardholder Account Statement

The **Cardholder Account Statement** is only for verifying receipts, attaching documentation, and for auditing by Agency Accounts Payable staff. **DO NOT** pay from the Cardholder Statement.

If no cardholder transactions are charged during the monthly cycle, no Cardholder Statements or Managing Account Statement will be generated—a **zero balance statement will not generate** (See Payment History for Managing Account Status).

Managing Account Profile and Payment History

To view the Managing Account Profile and Payment History, select **Account Information** from the left-hand navigation menu.

Under Account Profile select **Managing Account Profile**.

Transaction Management

Monitoring Account Activity

One of Access Online's key benefits is the ability to **monitor account activity**. Transactions that have posted may be monitored by Cardholders or Agency Pcard Administrators and should be done regularly to detect fraud early and reduce the additional time, paperwork and expense needed to address it. Transactions that are pending but not yet posted can only be viewed by Pcard Administrators.

- **Identifying fraudulent transactions BEFORE they post to the account avoids having to complete US Bank Fraud Verification Paperwork.** To view charges before they post (Admins only), go to: Account Information—Cardholder Account Profile—Account Authorizations. See [Authorized Charges and Declined Transactions](#) below.

- **Addressing fraudulent transactions after they have posted but BEFORE they print on the statement prevents having to pay the charges for later reimbursement (remember: **DO NOT short-pay Statements!**). To view charges after they post, (Cardholders and Admins), go to: Transaction Management—Transaction List—Card Account Summary with Transaction List. See [Viewing Current Post Transactions](#).**

Authorized Agency PCard Administrators may also run Declined Transaction Reports to identify attempted fraud transactions (see Reporting section for details).

[Authorized Charges and Declined Transactions](#)

Authorized Charges are those that have been made but not yet posted to a cardholder's account. From the Home screen, select **Account Information**.

From Account Information, select **Cardholder Account Profile**.

Enter the Cardholder's last name and search; then select card type – Purchasing Card or One Card (Travel)

☐		02/15	02/18	MENARDS 3046	DES MOINES, IA	\$54.75		IOWA BUILDING		Multiple

Allocating/Reallocating Transactions

Allocating in Access Online can only be performed at the Cardholder Account level, but may be done by either the Cardholder or designated Agency Administrator. **It is strongly recommended that transactions are verified and reallocated regularly during the current cycle**—especially for high volume accounts. This not only helps with fraudulent transactions, but facilitates with month-end payment processing. (Remember, catching fraudulent transactions before the statement generates prevents the agency from having to pay fraud charges for later reimbursement.)

From the **Transaction Management** screen, the current (open) transaction list is selected by default from the **Billing Close Date** drop-down menu. Inside the drop-down menu, all active or previous billing cycle transactions are available for review. To

allocate or reallocate Cardholder transactions, simply select the **Accounting Code** live link from the Transaction List on the right.

Every card is mapped to a Default Accounting Code that consists of Fund—Department—Unit—Object (shown above). All transactions will reflect this default accounting string unless the MCC (Merchant Category Code) has been mapped to a designated Object code. (i.e. Office Supplies).

Once the live link has been selected, changes to accounting string or distribution of transactions can be made in the **Transaction Detail** screen. Distribution can be set either by percentage (total must = 100%) or dollars (total dollars must sum).

Scroll to far right to enter comments!

COMMENTS REQUIRED:

When reallocating, content must be added to the **COMMENTS** field at the far right of the screen before reallocations will be accepted. **You must scroll to the far right to access the Comments field. Be sure to Save Allocations** to lock in changes before exiting. If the default accounting code is correct, no action is needed.

WHY WE ALLOCATE: Allocating in Access Online streamlines the payment process. Transaction data and accounting strings are extracted from Access Online 15 calendar dates after the cycle close date. Through a data interface, the information is uploaded to Iowa Advantage and used to automatically generate Payment Request Commodity (PRC) documents. Accurate allocations in Access Online result in accurate PRC's **-without manual entry!**

Note that accounting strings (including the Comments field) must match EXACTLY to roll up in Iowa Advantage. To help ensure consistency, some agencies create a master list of accounting codes and corresponding comments. Another option is Accounting Code Favorites.

Iowa Advantage Interface/Payment Processing

US Bank payment terms are net 30 days. Through a data interface, PRC payment documents (for PCard accounts only; not Travel Card) are automatically generated in Iowa Advantage (15) calendar days after the cycle close date using the accounting information entered in Access Online. Agencies must determine their internal processes to ensure all documentation is collected and allocations are made within the 15 days in order to participate in the Interface and make payments within 30 days or less.

Payments to US Bank should always be made from the Managing Account Statement via PRC or TP (GAX processing not allowed). If utilizing the Iowa Advantage Interface for PCard payment processing, the correct vendor/customer number will automatically be references on the PRC.

To locate PRC document(s) in Iowa Advantage, enter the following:

- Code = PRC
- Dept = your department number
- Unit = enter if applicable
- ID = PRC + Dept # + date created
- Create User ID = unapproved
- Phase = Draft

If manually processing payments in Iowa Advantage, the correct vendor/customer number must be referenced on the PRC or TP so that payments post correctly to the appropriate managing account. Travel Managing Accounts and PCard Managing Accounts will have separate vendor/customer numbers. If your Agency is unsure of which vendor/customer number to use, contact the State PCard Program Team for clarification.

Reporting

Access Online has a wide range of reporting capabilities. (For sorting results, always select Excel, and remember to never use the back arrow in your internet browser.)

Transaction Detail Report with Allocation Detail

The **Transaction Detail Report** is a useful and helpful report for verifying ALL Cardholder transactions and allocations. From the left column menu, select **Reporting**, then **Financial Management**, then **Transaction Detail**. To guarantee that all data is included (including transactions that post the last night of the banking cycle) select **Posting Date Range** and enter the dates of the cycle (usually the 21st through the 20th unless the 20th falls on a weekend or holiday).

Creating a Flex Data Report for Transaction/Allocation Detail (for pre-audit)

The following flex data report is a customizable alternative to the Transaction Detail Report and may be helpful in reconciling statements and matching monthly allocations to the PRCs generated by the U.S. Bank/I/3 Interface. Sorting the columns as instructed in Step 10 will reflect transactions in the order they appear on the Managing Account Statement. TIP: Once the pre-audit is complete, you can resort the spreadsheet by allocation code to see how accounting lines on the PRC will roll up.

1. Log into Access Online.
2. Select **Reporting ---Flex Data Reporting** from the left navigation menu.
3. Select the tab "**Create a New Report Template**".
4. Under the **Primary Report Data**, select **Transaction** under **Additional Data**, highlight the **Allocation** check box and then select **Create** at the bottom.
5. Enter a report name and report description in the appropriate field boxes.
6. Select the Report Output Type to Excel.
7. Check **only** the following selections under the Select Report Data tab (uncheck any others not applicable)
 - a. **Hierarchy**
 - i. Processing Hierarchy
 - b. **Account**
 - i. Short Name
 - c. **Allocation**
 - i. Allocation Accounting Code
 - ii. Allocation Amount
 - iii. Allocation Percent
 - d. **Merchant**
 - i. Transaction Merchant Name
 - e. **Transaction**
 - i. Cycle Close Date –and check the **filter** box to the right of the Cycle Close Date
 - ii. Posting Date
 - iii. Transaction Amount
 - iv. Transaction Date
8. From the Filter for Content Tab
 - a. Enter cycle start and close dates (usually the 21st through the 20th of the month, unless the prior month's cycle closed on a holiday or weekend; check the calendar!)
 - b. Enter the Bank, Agent, and Company numbers for your agency.
9. No further action is needed from the Sort by Criteria tab.
10. From the Set Report Layout tab, move the column titles to this order
 - a. Short Name
 - b. Posting Date
 - c. Transaction Date

- d. Transaction Merchant Name
 - e. Allocation Accounting Code
 - f. Transaction Amount
 - g. Allocation Amount
 - h. Allocation Percent
 - i. Processing Hierarchy
 - j. Cycle Close Date
11. **Scroll up to the top and select Save Template.**
 12. Select Run Report. Excel report will download onto your screen. Delete all columns to the right of ***Allocation Percent*** as they are not needed, resulting in 8 columns in the report.
 13. Run report monthly, updating cycle to and from dates accordingly following allocation completion. Save template.
 14. See Sample below for reference.

Cardholder Sort- follows Managing Account Statement order to facilitate pre-audit (shows break-out of splits)

Creating a Cardholder Active Account List

It is often necessary for an Agency Administrator to have an up-to-date list of active Cardholder Accounts. Fortunately, Access Online is here to help with this creation. Follow the steps below to generate an Active Cardholder Account List.

1. Log into Access Online
2. From the left menu column, select **Reporting ---Program Management**.
3. From the main screen, select **Account List** under **Administration**.
4. On the next page, select **Account Open Date range** and leave the date ranges open.
5. Under **Account Status**, select **Open**.
6. Under **Additional Detail**, select the desired level:
 - a. Demographics include mailing information, email address, phone number, etc.
 - b. Account Information includes the Managing Account name and person designated as Agency PCard Coordinator in Access online. It also includes card balance, issue, expiration, and cycle dates.
 - c. Default Accounting Code (fund, dept, unit, object)
 - d. Authorization limits will include Single Transaction, Monthly, and Velocity Limits
 - e. Merchant Authorization Control Details will list what MCC default templates each cardholder has associated to their account.
 - f. Merchant Authorization Control Limits is not an option we use.
 - g. **Demographics Account Info**, and **Authorization Limits** should be selected.
7. Select a preferred sort method (or skip this step and resort once the report has been created.)
8. Select **Excel** from the **Report Output Type** dropdown menu.
9. Under **Group By** select **Processing Hierarchy Position**.
10. Under **Group Report By** enter the Bank, Agent, and Company numbers.
11. Select **Run Report**.
12. Select **Open**
13. When the report opens, select all, copy and paste to a new Excel Document and save to desired directory.
14. Eliminate all columns except for the following:
 - a. Short Name
 - b. Status
 - c. Card Type
 - d. Expiration Date
 - e. Managing Account Name
 - f. Needs Activation
 - g. Reissue
 - h. Last trans

- i. Bank
 - j. Agent
 - k. Company
 - l. Division
 - m. Department
 - n. Credit Limit
 - o. Single Transaction Limit
15. Adjust column text, formatting, and headers as needed.
16. Note any cards that are in *referral* status and contact the cardholder to resolve.

Dashboard Reports

A dashboard report displays Managing Account Information by monthly, quarterly, annually, and year-to-date. To create a Dashboard Report, follow these steps:

- From the Access Online left menu select Dashboard.
- Select link *Create New Dashboard*.
- Enter a Dashboard Name (the name of your report).
- Enter a Dashboard Description (this description can be the same as the Dashboard Name or expanded information).
- Enter the Managing Account's Bank, Agent, and Company #s
 - PCard Bank # = 1425; Agent = 8945; Company is your agency's 5-digit # used when printing statements.
 - Travel Card Bank # = 3757, Agent = 2974; Company is your agency's 5-digit #
- Select the Save and View button.

Sample of a Dashboard Report/Graph:

Merchant Spend Analysis Report

For a report showing PCard spend to a particular vendor or MCC (merchant category code) group for your department/agency, proceed with the following steps:

1. Select **Reporting** from the left navigation panel.
2. Select **Supplier Management**.
3. Under Spend, select **Merchant Spend Analysis**
4. Select a Date Range (posting date, calendar date, cycle close date, or transaction date range)
5. Under **Report Type**, select the radio button **Merchant with Transaction Detail** (Excel only)
6. Add either a particular merchant name, or a Merchant Category Code Group
7. Scroll to the bottom of the screen and enter (under the Group Report By) your department/agency Processing Hierarchy Position
8. Select the **Run Report** button.

Sample Report (This is just a selection of the data. Total Spend dollars sums all purchases and credits separately; the Trans Amount dollars shows the individual transactions that make up the total. Both columns are equal).
