November 18, 2016

Wisconsin Department of Public Instruction

Thank you for your interest in StudentTracker for State Agencies.

In order to measure the post-secondary achievements of your students, it requires access to a database with comprehensive post-secondary school enrollment. StudentTracker enables administrators at high school districts as well as state education agencies to access the Clearinghouse's records on over 144 million students, which represent post-secondary enrollments and achievements nationwide. We maintain these records on behalf of the more than 3,600 colleges and universities that enroll 14.5 million students — 98% of total U.S. enrollment in higher education. These institutions have authorized the Clearinghouse to provide this information to high schools and high school districts in order to help them improve their educational programs. We are the sole source of such a comprehensive database.

Please do not hesitate to contact me if you have any additional questions.

Sincerely,

A handwritten signature in black ink that reads "Mary Chapin". The signature is written in a cursive, flowing style.

Mary Chapin
CLO, Vice President
