DeltaVision®

Finding a vision provider **near you is simple**

DeltaVision coverage is accepted at 154,000+ provider locations nationwide[1] with a choice of independent and retail providers. You are free to see any eyecare provider but may save more with one that's in-network. Finding one near you is easy — see how below.

1. **Visit www.deltadentalia.com** and click on *Find a Provider* at the top.

2. **Select the network for your employer benefits** from the list of options in the *DeltaVision Providers* section.

3. **Enter your search criteria** by using your location or a specific provider name or practice name.

4. **The eyecare providers that are identified based on your search criteria** will appear in a list, along with a map of their locations.

[1]*Based on Insight Network, EyeMed book of business, February 2024.*
