Subject EMPLOYEE EXPENSES – RELOCATION REIMBURSEMENT POLICY			

IMPORTANT NOTICE: Employees must receive the information contained within this Policy as early in the process as possible. Failure to do so may result in long delays or rejection of documents during the reimbursement portion of the process.

1. GENERAL POLICY

Executive branch state employees who are **reassigned** at the direction of the Appointing Authority **shall** be reimbursed for relocation and related expenses in accordance with this policy, with **a maximum amount of expense to the state of \$50,000**. To the extent which relocation reimbursement is addressed in a collective bargaining agreement, the provisions of the agreement shall govern. If approved by the Appointing Authority, a **newly hired** or **promoted individual may** be reimbursed for relocation and related expenses at the identical rate as the reimbursement of a current employee who has been reassigned. The Appointing Authority shall have the discretion to decide the extent to which reimbursement is provided to newly hired employee or promoted employee. Prior written approval must be given by the Iowa Department of Administrative Services (DAS) to the Appointing Authority for **relocation to or from outside the continental United States**. Upon request of the Appointing Authority, exceptions to this policy may be made with prior written approval of the Department of Administrative Services – Human Resources Enterprise (DAS-HRE). Eligibility for reimbursement shall occur when all of the following conditions exist:

- The move is for the primary benefit of the State;
- A permanent change in duty station is required; and
- The individual must change his/her place of personal residence beyond 25 miles.
For a move less than 25 miles, no relocation expenses reimbursement is allowed unless DAS-HRE has given prior written approval.

An employee may elect to relocate temporarily and remain eligible to relocate permanently at any time thereafter for a period up to twelve months from the day before the employee is to report to the new duty station. Temporary living expenses requested for reimbursement during such "temporary relocation" shall be included as part of the total amount reimbursable under this policy, up to 90 calendar days. Documents for reimbursement of temporary living expenses shall be filed on the Temporary Living Expense document (TP (RELO-SUB)). See page 14. One member of the employee's immediate household may be eligible for limited temporary living expenses. See "Subsistence Expenses" on page 6.

Reimbursement of relocation expenses will not occur prior to the time the employee is officially on the payroll or the time the employee has an official change in duty station, and will be made on the basis of the DAS rules and policies in effect at that time. However, approval to incur expenses and to submit documents for reimbursement may occur before the employee is officially reassigned or placed on the payroll. expenses shall be filed on the Travel Payment Relocation Expense (TP (RELO-EXP)) document. See page 14. Unless otherwise provided in this policy, reimbursement amounts for meals, lodging and personal vehicle mileage will be identical as to a state employee on state business.

Disputes with regard to the application and interpretation of this policy, as well as exceptions to this policy, shall be submitted to and resolved by the Director of the Department of Administrative Services. The resolution shall be put in writing and copies sent to the Appointing Authority, the employee and the Department of Administrative Services-State Accounting Enterprise.

A reassignment may include a change in duties, work location, days of work or hours of work, and may be temporary or permanent. A reassignment may result in a change from the employee's previous job classification.

Residence - An employee's place of permanent residence.

The employee may have only one (1) residence from which the move is being made. A mobile home may be considered a principal residence. Additional homes or real property owned or rented by the employee are not covered for the purposes of this policy, unless it is "temporary housing". See page 1. However, with prior approval, household goods from other locations may also be moved (e.g., items in storage or situations where the employee or a member of the employee's immediate family occupies a dormitory room).

A residence owned by the employee means a residence owned in whole or in part by the employee or spouse.

3. MAKING ARRANGEMENTS

In all situations, the employee is responsible for making relocation arrangements, but must first have the approval of the Appointing Authority before finalizing the arrangements. Neither the department nor the State of Iowa shall be responsible for loss or damage to an employee's personal property.

An employee approved for reimbursement of relocation expenses shall obtain **actual or faxed copies of "binding, not to exceed"** written bids from at least two licensed carriers that have operating authority to serve the area from which the employee is moving. See Moving Company Bid Sheet, page 15. Verification of the employee's chosen operating authority may be obtained from the Iowa Department of Transportation at (515) 237-3224. The bid with the lowest dollar amount will be the bid accepted. The employee may, however, make an alternate selection, but the amount that will be reimbursed shall not exceed the dollar amount of the lowest bid, and the employee must receive prior approval from the Appointing Authority before contracting with or utilizing an alternate carrier.

An employee approved for reimbursement of relocation expenses who is moving his/her *mobile home* shall obtain at least two "binding, not to exceed" written bids on the cost of moving the mobile home and the disassembly and re-assembly of any components. The bid with the lowest dollar amount will be the bid accepted. The employee may make an alternate selection, but the amount reimbursed shall not exceed the dollar amount of the lowest bid, and the employee must receive prior approval from the Appointing Authority before contracting with or utilizing an alternate transporter and installer.

After the relocation is complete, the employee will provide the department with proper documentation needed to prepare and process the document for payment.

In case the employee wishes to pay the carrier, transporter, or installer immediately after the move or is required to do so, the employee may claim reimbursement from the State and be reimburse through payroll as taxable income. All supporting documents required by the State (original invoice) must be furnished by the carrier, transporter, or installer to the employee, who must attach them to his/her document. The invoice must be marked clearly and signed by the mover "Paid in Full."

Employees who wish to move themselves shall not be reimbursed an amount that exceeds the lowest bid for the move. The expense reimbursement voucher must be accompanied by the two carrier bids and any applicable receipts. Neither the employee nor family members will be reimbursed for time spent assisting with or doing their own move.

Subsistence Expenses (Temporary Living Expenses)

Subsistence expenses are defined, for this purpose, as breakfast, lunch, dinner, lodging, and up to ten minutes of long distance or cellular phone calls to the former principal residence each day.

Subsistence expenses will start on the day prior to the day the employee is to report to the new duty station and end on the day after the employee's household goods are delivered to the employee's new principal residence or at the end of 90-calendar days, whichever comes first.

The 90-calendar days for the employee shall be consecutive unless the employee must be absent on state business from the new duty station for more than five consecutive work days, in which case those days will not be counted toward the 90-calendar day time frame.

Subsistence reimbursement for meals and lodging is the current rate for employee in-state travel, as established in the DAS-SAE Accounting Policies and Procedure Manual. Receipts for meals, travel, and other allowable costs are required per Executive Order Number 13. See Procedure 210.102.

One member of the employee's immediate household, if living with the employee, is also eligible to receive up to the same amount per day for meals, but not lodging, for a maximum of 90-calendar days. Both 90-calendar day periods will run concurrently. This reimbursement is in addition to "expenses during move of household goods". "Related" utilities are those items which would be included in the cost of a motel and are defined as, for this purpose, gas, electricity, basic telephone, basic cable television, and water. Documents for reimbursement of subsistence expenses shall be filed on the Temporary Living Expense Document TP (RELO-SUB). See page 14.

In lieu of or in combination with subsistence expenses, an employee may be reimbursed for mileage and meals at the daily in-state rate to commute between the new duty station and the employee's former principal residence. Daily reimbursement for commuting will not exceed the daily subsistence expense maximums that would be allowed if the employee remained at the new duty station location.

e. Expenses During Move of Household Goods

Actual meals and lodging for the employee and each member of the immediate household, up to five days and four nights while household goods are in transit.

At the time of the move, one-way mileage (at the state rate) for up to two vehicles, owned by the employee or a member of the employee's household, from the former principal residence to the new principal residence. Should the employee's household contain more than two licensed drivers, the number of vehicles for which mileage reimbursement may be claimed shall be equal to the number of licensed drivers. In lieu of driving automobiles from the former principal residence to the new principal residence, the employee and/or the employee's immediate household members may choose an alternate means of transportation for reimbursement and have the vehicles moved by the moving company.

f. Costs Incurred in Settling a Lease - Not to Exceed 3 Months' Rent

This expense shall not be allowed if determined the employee knew, or reasonably should have known, that a reassignment was imminent before entering into a lease agreement.

g. Mortgage Interest Differential

Mortgage interest differential is calculated when the mortgage interest rate on the new principal residence exceeds the interest rate on the mortgage on the former principal residence.

The reimbursement shall be the amount that would be required to reduce the new mortgage balance to an amount that could be amortized at the same monthly payment (principle and interest) as the old mortgage. If the new mortgage is less than the computed amount for a new mortgage, the differential will be prorated and reduced accordingly. Use the Mortgage Interest Differential document for this calculation. See page 15.

h. Market Value Differential

Market value differential is the difference between the actual sale price obtained for the former principal residence and its estimated market value based on independent appraisals. If possible, obtain appraisals prior to placing the former principal residence on the market.

The differential is used when the actual sale price is obtained for a residence is less than the estimated market value based on independent appraisals. The amount to be reimbursed shall not exceed 50% of the difference between the actual sale price obtained, following a good faith effort, including the use of a realtor, to market the property, and the average of two estimates of the market value prepared by two independent appraisers. The amount of the payment will be calculated using the Market Value Differential document on page 15.

The employee must make payment to the appraisers and submit the invoice marked "paid in full" along with the appropriate expense reimbursement vouchers to the Appointing Authority for reimbursement of these expenses. See page 15.

If the appraisers' opinions of market value differ by more than 5%, the Appointing Authority will order a third appraisal. The market value estimate will then consist of the average of the three opinions.

The cost of the appraisals and any market value differential payment shall be included in the maximum reimbursement allowable under this section.

Calculation of Mortgage Interest Differential

This calculation computes the payment required to reduce a person's new mortgage to an amount that can be amortized at the same monthly payment for principal and interest over the same time period as the remaining term on the old mortgage. This payment is commonly known as the "buydown."

The remaining principal balance, the remaining term, the interest rate and the monthly principal and interest payments for the old mortgage, as well as the interest rate and amount of the new mortgage must be known. If the interest rate on the new mortgage exceeds the prevailing fixed interest rate for conventional mortgages, the prevailing fixed interest rate shall be used in the calculation.

OLD MORTGAGE:	Annual interest rate (round to 6 decimals)	# payments remaining	Monthly payment prin. & int.	Remaining principal balance on old mortgage (whole Dollars)
EXAMPLE	7.5%	174	\$472.20	\$50,000
ACTUAL	%		\$	\$

NEW MORTGAGE:	Annual interest rate (round to 6 decimals)	# payments remaining	Monthly payment prin. & int.	Amount to be financed on new mortgage (whole Dollars)
EXAMPLE	10%	174	\$472.20	\$43,292.21
ACTUAL	%		\$	\$

MORTGAGE INTEREST DIFFERENTIAL	Remaining principal balance on old mortgage (whole Dollars)
EXAMPLE	\$50,000 - \$43,292.21
ACTUAL	\$

MORTGAGE INTEREST DIFFERENTIAL REDUCTION:
If the new mortgage is less than the "Amount to be financed," the mortgage interest differential shall be reduced by the factor of the new mortgage divided by the "Amount to be financed." For example, should the new mortgage be \$35,000, the following calculation would reduce the amount of the differential to be paid:

$$\frac{\$35,000 \times \$6,707.79}{\$43,292.21} = \$5,422.98$$

Calculation of Market Value Differential

This calculation computes the payment for market value differential. The payment is made when the actual sale price obtained for the former residence is less than its estimated market value. The amount of payment is 50% of the difference between the actual sale price and the estimated market value.

Estimated market value is the average of two independent appraisals prepared by independent appraisers licensed in the state of residence. However, if the appraiser's opinions of market value differ by more than 5%, a third appraisal will be obtained. The market value estimate will then be the average of the three opinions.

	EXAMPLE	ACTUAL
Appraisal #1	\$110,000	\$ _____
Appraisal #2		\$ _____
Difference	\$10,000	\$ _____
Percent Difference	\$10,000 / \$100,000 X 100 = 10% (exceeds 5%)	% _____
Appraisal #3 (since % difference exceeds 5%)	\$103,000	\$ _____
Estimated Market Value (average of appraisals)	\$104,333	\$ _____
Actual Sale Price	\$97,000	\$ _____
Market Value Differential (\$104,333 - \$97,000)	\$7,333	\$ _____
Payment for Market Value Differential (\$7,333 X 50%)	\$3,666	\$ _____
