

Save Time and Money on Durable Medical Equipment

HREXPRESS

June 2020

Durable medical equipment (DME) is equipment such as walkers, wheelchairs, oxygen, and other adaptive devices that helps you complete your daily activities.

To save you time and money when purchasing DME, Wellmark has contracted with two preferred, mail-order DME vendors (Better Living Now and Edgepark). These vendors allow equipment and supplies to be shipped directly to your home.

More information about these preferred DME vendors is available on the DAS [Health Insurance](#) webpage.

If you have questions about DME or any other health insurance benefits, contact Wellmark's customer service at 800-622-0043 or 888-781-4262 (TTY).
